

MAP READING FLUENCY

3 workshops to help you support your youngest readers

MAP® Reading Fluency™ measures oral reading fluency, comprehension, and foundational skills in just 20 minutes. While the assessment is quick, we recommend setting aside some time for professional learning. Knowing how to administer the assessment, read the reports, and apply the data will be extremely valuable—for both teachers and students.

Because our consultants are former educators and experts in analyzing and applying data, we know how important it is to get personalized support. We meet you where you are and provide you with knowledge, skills, and strategies that can be immediately applied in your classroom.

MAP Reading Fluency Basics

Learn how to use the assessment and data to gain a more holistic view of students' reading abilities and track student progress through key skill acquisition.

What You'll Learn

- + Understand how MAP Reading Fluency benefits teachers and students
- + Administer the assessment to a classroom of students
- + Connect the evidence to early literacy skill acquisition

Virtual MAP Reading Fluency Basics

Ideal for smaller implementations of MAP Reading Fluency, this virtual workshop prepares teachers to administer the assessment and apply the data to support students in developing reading skills.

Up to 12 participants can join us in this collaborative virtual learning experience. This workshop includes a live facilitated webinar, with self-paced pre- and post-learning activities.

WHO SHOULD ATTEND

- K-3 teachers
- Instructional coaches
- Teacher leaders
- Literacy coaches

ONSITE WORKSHOPS

- Each workshop is half a day and can be paired with any other half-day workshop or coaching
- Up to 40 participants per workshop
- Certificate of completion available

EXTEND YOUR LEARNING

As an NWEA® partner, you can access our Professional Learning Online platform to reinforce what you've learned, develop new skills, and find answers to your questions.

MAP Reading Fluency Essential Reports

Interact with individual student and class reports, identify students' needs to inform instruction, and share insights with students and parents.

What You'll Learn

- + Dive into key reports and resources to support young readers at various levels
- + Use individual student data and class reports to differentiate reading instruction
- + Guide students and parents in understanding evidence from the assessment

MAP Reading Fluency Informing Instruction

Explore instructional strategies and resources that promote early literacy skills to support basic, primary, and intermediate reader growth.

What You'll Learn

- + Identify the goal progression for learners to develop reading fluency with understanding
- + Align instructional practice with early reading development to differentiate effectively
- + Connect evidence to support instructional decision-making
