map Reading Fluency

Turn learning evidence into
instructional action

Activate MAP® Reading Fluency™ by learning how to use assessment data to gain a more holistic view of your early readers' abilities, target instruction that is just right for each student, and track learning progress.

Professional learning that drives instructional change

Teachers demand and deserve the opportunity to grow, learn, and develop as professionals. NWEA® Professional Learning engages teachers in collaborative conversations that foster high-quality, ambitious instruction that improves student outcomes.

We develop professional practice in the four critical, interconnected categories that help educators make the most instructional impact.

The MAP Reading Fluency professional learning suite is part of the Data to Support Instruction series.

Power up your professional learning with these additional services:

Want to deepen the learning with additional time and space for application and practice?

Instructional coaching for teachers

Continue the learning from any of our offerings by adding collaborative coaching. A highly qualified thought partner and practitioner will lead teachers through an inquiry-based coaching cycle to deliver a highly responsive and contextualized experience that takes the learning from theory to practice, using evidence-based and research-driven methods to build teacher capacity, efficacy, and instructional skill.

Want to measure the impact of professional learning on teaching effectiveness and student learning?

Learning and evaluation services

This set of tailored tools and services measures the impact of professional learning on participants, school systems, and students. Beginning with a comprehensive needs assessment, our evaluation services are fully integrated with the planning and delivery of your professional learning to ensure the unique learning needs of your district are being met.

Interested in deeper learning around early literacy instruction?

Responsive literacy practices professional learning

Our content-focused professional learning offerings for literacy communicate essential findings, from reading science to practical classroom applications. We come alongside educators to empower them with the foundational theory, practical demonstrations, and actionable tools to level up their teaching with the science of reading.

Make meaningful, measurable
instructional change.
