YEAR TWO

Empower teachers with the
best data and learning

nwea Professional Learning

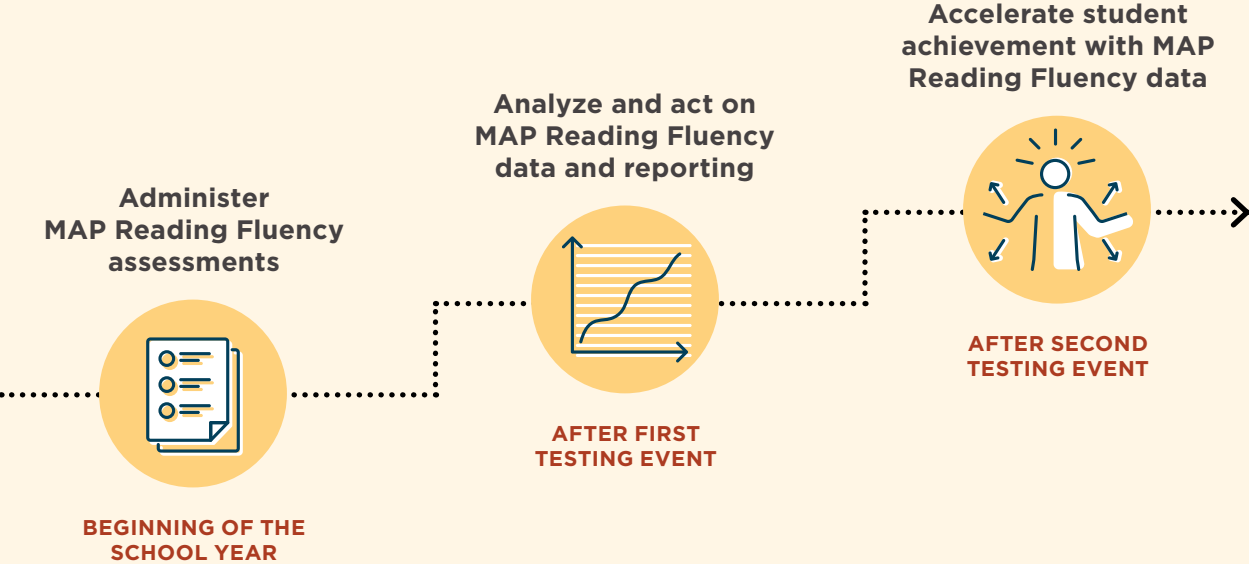

Educator and student success starts here

Let's partner to achieve your goals

NWEA® Professional Learning is grounded in the latest research and exemplar MAP® Reading Fluency™ implementations to help your district achieve its goals.

Are you ready to take MAP Reading Fluency to the next level? Explore our recommended professional learning pathway designed for your **second school year** of MAP Reading Fluency implementation. Most recommendations can be customized to include topics and delivery that work for you—on site, virtual, small group, or 1:1.

In your second school year of MAP Reading Fluency professional learning, you'll learn to:

YEAR TWO PROFESSIONAL LEARNING

Administer MAP Reading Fluency assessments

Get ready for a successful year-2 implementation, gain a solid understanding of what makes MAP Reading Fluency unique, and explore resources that help inform the process. Learn how to administer the assessments and discover data's potential power to engage students and inform instruction.

START HERE

Beginning of the school year

Recommended professional learning:

- **MAP Reading Fluency foundations:** This online course equips educators to administer the MAP Reading Fluency assessment and access, interpret, and apply the data. (*on-demand, online*)

Make it your own! Most courses and workshops are available in person, online, for longer/shorter durations, and for groups of varying sizes.

Professional learning has been customized to meet the learning needs for our teachers, supporting them throughout their journey. Three years later, we are seeing great success.

Using our MAP data, the learning continuum, and formative assessment practices, our students are experiencing great growth, closing the achievement gap!”

Dr. Lori Stollar
Director of Curriculum and Innovation, Littlestown Area School District, PA

YEAR TWO PROFESSIONAL LEARNING

Act on MAP Reading Fluency data

Learn how to use MAP Reading Fluency data to reflect on growth across the classroom, grade, school, and district. Explore how to identify patterns and trends that can inform school or district goals. Utilize the responsive planning process to address student needs and meet your school and district goals.

NEXT

After the first test event

Recommended professional learning:

- **Responsive literacy practices: Building fluent readers part 1:** Explore the concept of reading fluency, analyze the foundational skills that serve as building blocks for fluency development, and investigate the variables that impact reading fluency. Apply reading fluency research to inform instruction. *(3 hours, up to 30 teachers)*
- **Instructional coaching:** Dig deeply into MAP Reading Fluency reports to understand class- and student-level data and design instructional practices to meet students' needs. *(5 hours)*

Make it your own! Most courses and workshops are available in person, online, for longer/shorter durations, and for groups of varying sizes.

92.9% of participants felt that their session elicited and encouraged active engagement.

YEAR TWO PROFESSIONAL LEARNING

Accelerate with MAP Reading Fluency data

Learn how to use MAP Reading Fluency data to reflect on growth across the classroom, grade, school, and district. Explore how to identify patterns and trends that can inform school or district goals. Utilize the responsive planning process to address student needs and meet your school and district goals.

THEN

After the second test event

Recommended professional learning:

- **Responsive literacy practices: Building fluent readers part 2:** Dig into ways to use the components of a formative assessment cycle to develop reading fluency instruction and connect the formative assessment cycle and reading development phases to instruction. *(3 hours, up to 30 teachers)*
- **Instructional coaching:** Work with an instructional coach to build teacher capacity and efficacy that's grounded in data-driven instructional practices. *(5 hours)*

Make it your own! Most courses and workshops are available in person, online, for longer/shorter durations, and for groups of varying sizes.

94.1%

of professional learning participants agreed that the learning could immediately be applied to their practice.
