Instructional Connections network

nwea

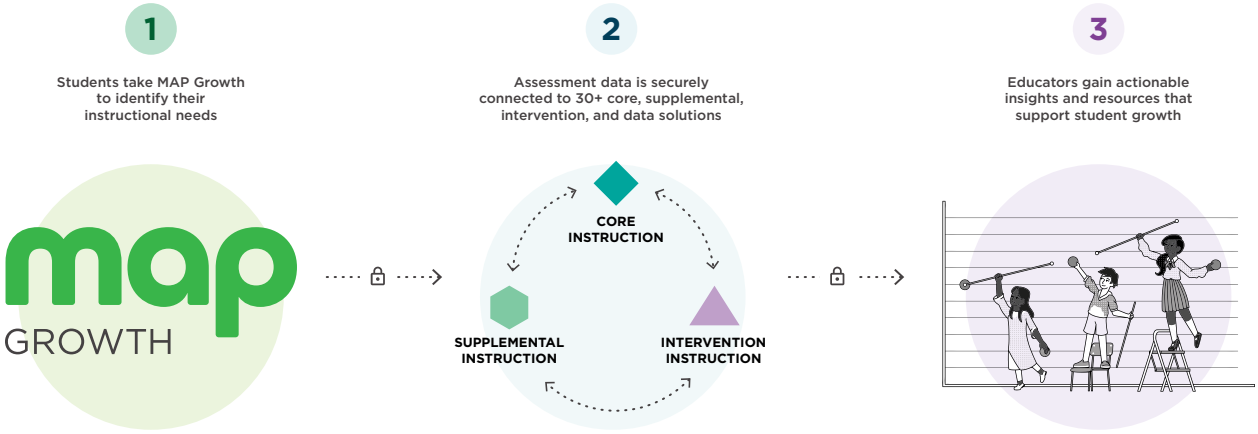

Educator and student success starts here

Supporting growth for more students in more grades across more subject areas than any other assessment, MAP® Growth™ delivers precise, reliable data to help educators at all levels make the most informed and effective decisions.

Connect with the learning tools you already use and trust

MAP Growth securely connects to a network of 30+ core, supplemental, intervention, and data tools—the largest of its kind. This means you can keep the curriculum you've already vetted and couple it with the most reliable assessment data available. You can also add or swap tools down the road without losing any longitudinal data. We honor your curriculum adoption process.

How it works

The MAP Growth Instructional Connections network enables you to:

Own your curriculum, instruction, and assessment process

Retain the flexibility to make the decisions that are best for your teachers and students.

Provide every teacher with reliable, accurate student data

Ensure instruction is targeted and effective without additional placement assessments.

Connect every student with personalized learning experiences

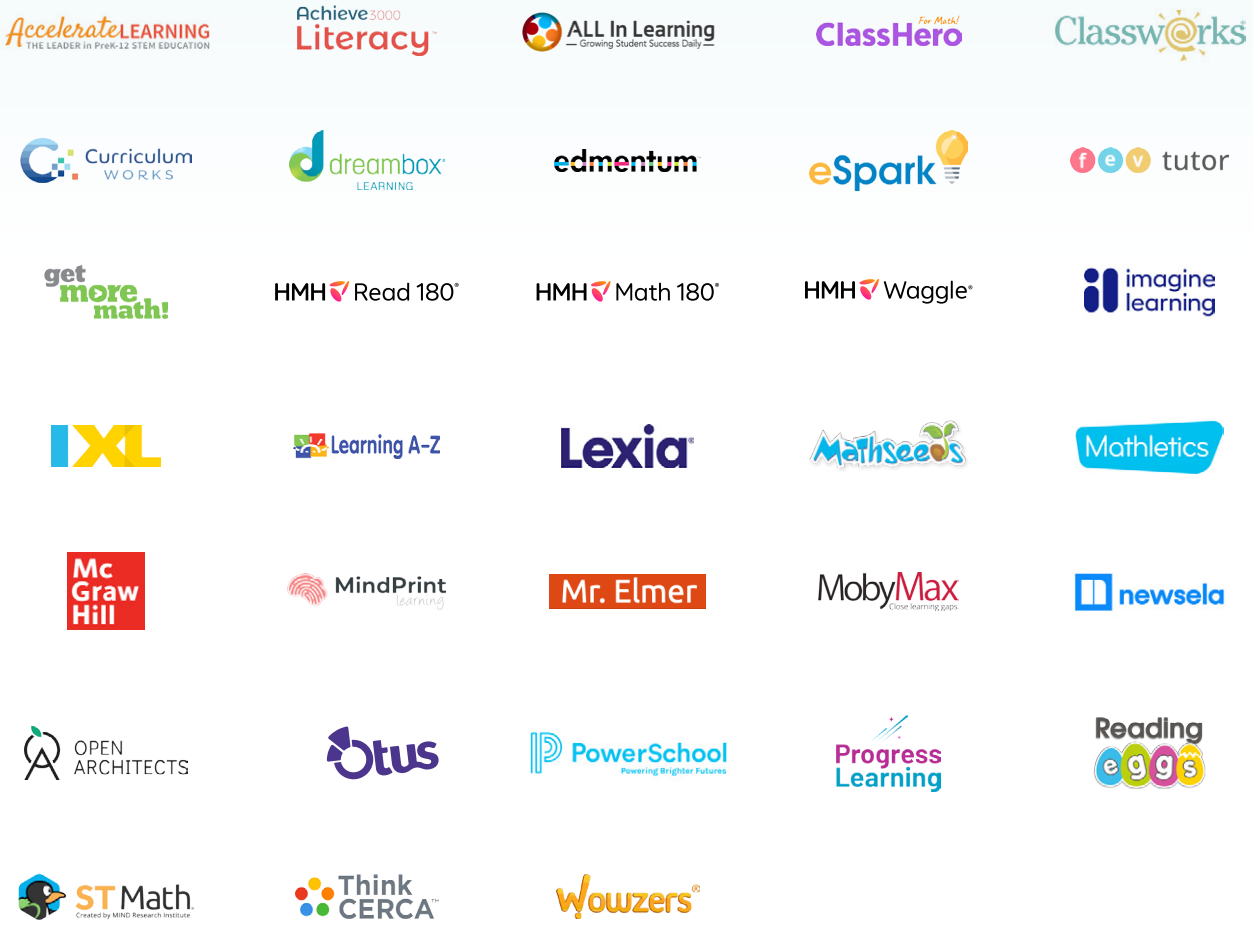

Support teacher-led instruction and student-driven personalized learning.

> It's the most well-researched test out there. I'm continually impressed by the norm studies and other research NWEA® publishes... When I'm asked about the credibility of the test, I know what I'm saying is research-based, and there are many studies to back it up. We've been thrilled to be able to work with a company like this."

Colleen Lennon
Curriculum Specialist, Cleveland Municipal School District, OH

Your students, your choice

Only MAP Growth connects to the widest range of instructional providers.

Connect to integrated HMH teaching solutions with Personalized Path

HMH Personalized Path™ provides MTSS-aligned, personalized ELA and math learning opportunities that meet students where they are. By activating MAP Growth data for precise placement, teachers can provide students with ESSA-rated adaptive lessons, practice, and targeted intervention pathways.

Additional HMH integrations

HMH Read 180® HMH Math 180® HMH Waggle®

With learning pathways supporting independent practice, teachers gain instant insight into which skills need attention, reducing time spent analyzing data and helping them focus on instruction where it matters most.

Visit hmhco.com/programs/hmh-personalized-path to learn more about how Personalized Path turns insight into action and accelerates measurable student growth.

nwea

NWEA, a division of HMH, supports students and educators worldwide by providing assessment solutions, insightful reports, professional learning offerings, and research services. Visit NWEA.org to find out how NWEA can partner with you to help all kids learn.
