

By the numbers

Learn how the latest innovations to MAP Growth provide a rigorous testing experience uniquely tailored for every student at every level

50,000
standards-aligned test items

MAP Growth's enhanced algorithm prioritizes on-grade items across strands and instructional areas, and flexibly adapts above or below grade level as students respond.

40%
DOK Level 2-3

Over 40% of items are rated at depth of knowledge (DOK) levels 2 or 3 for students to engage in more complex thinking and problem-solving.

40-55
minutes

MAP Growth delivers the most accurate universal screening in approximately 43 questions or 40-55 minutes on average.

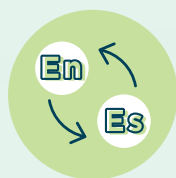

60+ Linking
Studies

In addition to correlation studies with classification accuracy for state summative assessments, MAP Growth's college and career readiness linking studies provide reliable, criterion-referenced predictions of student performance.

0 repeat
test
items

This deep bank ensures that a student never sees the same test item that school year.

Dual
Language

MAP Growth supports bilingual learners with Spanish Math (K-12) and Spanish Reading (K-8) assessments that include custom-created, authentic Spanish items and trans-adapted items checked for cultural bias.

13.8 million
students

MAP Growth norms are sculpted to more accurately represent the geographical, racial, and socioeconomic diversity of students across the United States.
