

## KEY RESOURCES

**LEARNING CONTINUUM**  
Translate MAP Growth scores into the standards each student is ready to learn.

**PRACTICE ACTIVITIES**  
MAP Skills curates free open educational resources for students to practice skills that need work.

**INSTRUCTIONAL CONNECTIONS**  
MAP Growth data links to over a dozen online learning tools—like Khan Academy.

## NEXT STEPS

FALL	WINTER	SPRING
<p><b>ANALYZE</b> Class Breakdown Report Student Profile Report Learning Continuum</p> <p><b>ACT</b> Decide which content areas most need differentiated lessons. Use MAP Growth data to quickly identify instructional groups.</p> <p><b>SHARE</b> Share the learning standards you'll focus on for each student with their families.</p> <p><b>ADVISE</b> <i>Applying Reports</i> professional learning workshops help teachers use data to make effective instructional decisions.</p>	<p><b>ANALYZE</b> Learning Continuum MAP Skills Student Dashboard</p> <p><b>ACT</b> Use MAP Skills to assign learning resources to each student that targets their specific skill gaps.</p> <p><b>SHARE</b> Use the MAP Skills Student Dashboard to show families all of the new skills their kids have mastered.</p> <p><b>ADVISE</b> Make sure teachers have the time and structure in place to discuss strategies with colleagues as well as instructional leaders.</p>	<p><b>ANALYZE</b> Class Report District Report Achievement Status and Growth Report</p> <p><b>ACT</b> Extend access to your MAP Growth-informed instructional connections online learning programs for students into the summer.</p> <p><b>SHARE</b> Create a shared library of the year's most effective differentiated lesson plans.</p> <p><b>ADVISE</b> Help teachers build tiered, responsive instructional plans by hosting an <i>Informing Instruction</i> professional learning workshop.</p>
