

PowerSchool Performance Matters is a comprehensive student assessment and reporting software solution built to save teachers time as they work to identify unfinished learning and build personalized, whole-child instruction.

How does PowerSchool Performance Matters integrate with NWEA's MAP Growth Data?

- The PowerSchool Performance Matters API allows end users to compare growth on MAP Growth with other assessments such as state-level scores and assessments delivered in Performance Matters.
- MAP Growth data can also be analyzed alongside attendance, behavior, and demographic information.
- PowerSchool Performance Matters shows comparison charts to show growth in MAP Growth performance over time.

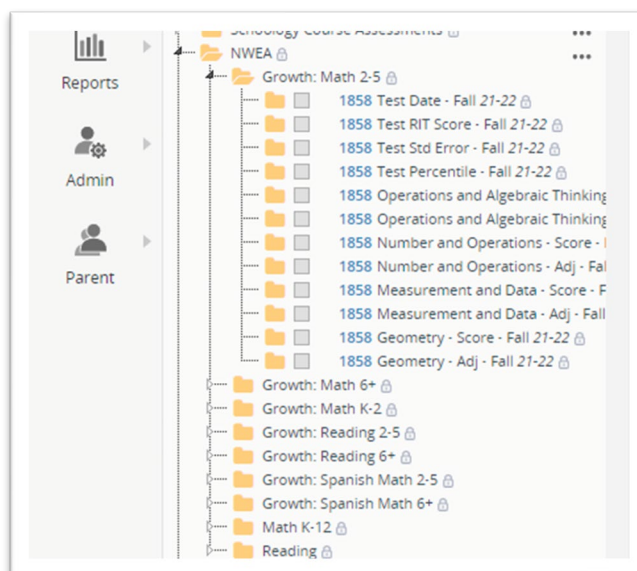

How do educators use PowerSchool Performance Matters with their MAP Growth data in the classroom?

PowerSchool Performance Matters may be used to differentiate learning paths in center rotation or a weekly formative assessment and strengthen fluency and critical thinking.

Here's what you need to know to get started:

1 Search in ShopDOE

Schools may login into [ShopDOE](#) and search "Performance Matters" in the product search bar. Enter number of licenses needed and process purchase order through FAMIS portal.

2 Assess your students with MAP Growth

The [MAP Growth Administration and Operations Guidance](#) is your one-stop shop for information about MAP Growth assessments as you navigate testing. You can also find it on the [NYCDOE Infohub](#).

3 Connect your data

PowerSchool Performance Matters has a data agreement with NWEA where MAP Growth scores are imported directly into Performance Matters Reporting via API.

4 Learn

Access help.PowerSchool.com for PowerSchool Performance Matters support videos, quick guides, on demand and live webinars, and training videos.
